DETAILED ACTION

Allowable Subject Matter

- 1. The indicated allowability of claims 36-41 is withdrawn. The current rejection is based on non-stationary double patenting rejection.
- 2. Claims 2-11, 13-23, 25-31 and 33-35 are allowed.

Double Patenting

3. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

4. Claims 36 and 37 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 6 and 7 of U.S. Patent No. 6,805,117. Although the conflicting claims are not identical, they are not patentably distinct from each other because Claim 36 of the instant application is broader than patented claim 1 of patent '117, therefore, patented claim 1 of patent '117 "anticipates" instant application claim 36. *In re*

Goodman, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993). With respect to claim 37 of the instant application, the limitations can be found in claims 6 and 7 of patent '117.

- 5. Claims 38 and 39 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 6 and 7 of U.S. Patent No. 6,805,117. Although the conflicting claims are not identical, they are not patentably distinct from each other because Claim 38 of the instant application is broader than patented claim 1 of patent '117, therefore, patented claim 1 of patent '117 "anticipates" instant application claim 36. *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993). With respect to claim 39 of the instant application, the limitations can be found in claims 6 and 7 of patent '117.
- 6. Claims 40 and 41 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 20, 23 and 24 of U.S. Patent No. 6,805,117. Claim 40 of the instant application is broader than patented claim 20 of patent '117, therefore, patented claim 20 of patent '117 "anticipates" instant application claim 40. *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993). With respect to claim 41 of the instant application, the limitations can be found in claims 23 and 24 of patent '117.

Remarks

7. The examiner acknowledges the cancellation of claims 1, 12, 24 and 32.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nihir Patel whose telephone number is (571) 272-4803. The examiner can normally be reached on 7:30 to 4:30 every other Fridays off.

Application/Control Number: 10/622,562

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Patricia Bianco can be reached on (571) 272-4940. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
